

MapRice GIS Seed Order Guide

September 2020

Seed Orders

It's a good idea to make sure your farm and paddock areas are accurate before placing a seed order. Some receival contracts are based on acreage, and the seed orders lodged for that farm and variety must be within a set tolerance of the acreage on the receival contract.

A seed order must be lodged through MapRice GIS before seed can be collected from a depot.

Lodging a Seed Order

1. Click the **Seed Order** button in the Farms and Paddocks Panel.

The screenshot shows the AGTRIX interface with the 'Farming' tab selected. Under the 'Farms and Paddocks' section, there are six green buttons: 'Selected Farms', 'Delivery Summaries', 'Seed Order' (highlighted with a red box), 'Harvest Progress', 'Planned', and 'Completed'. The 'Seed Order' button is the target for step 1.

2. Click **Order on this farm**, for the farm you wish to create an order for.
Note that if contact has already been submitted the contract details will be pre-filled in the area highlighted in blue.

The screenshot shows the 'Seed Order Summaries' page for farm 7829 (102897). At the top, there are two buttons: 'No Order' and 'Order on this farm' (highlighted with a red box). Below these is a table with the following data:

Variety	Contract	Amount	Status	Area (ha)	Amount (t)
01_Reiziq	H	150	—	0.00	0.000
04_Topaz	H	50	—	0.00	0.000
07_Doongara	H	10	—	0.00	0.000
08_Koshihikari	H	25	—	0.00	0.000

3. To create a seed order for a previously submitted contract click **Order** for the relevant contract.
 To create a seed order without a contract click **Add Pool**.

Seed Orders - 7829

Submit Add Pool

7829 (102897) No Order

Variety / Paddock	Status	Area	Amount	kg/ha	
01_Reiziq	_(H / 150)	0.00	0.000	N/A	Order
		0.00	0.000	N/A	
04_Topaz	_(H / 50)	0.00	0.000	N/A	Order
		0.00	0.000	N/A	
07_Doongara	_(H / 10)	0.00	0.000	N/A	Order
		0.00	0.000	N/A	

4. On the “New Seed Order” page enter the **Estimated Sowing Date**, **Sowing Method**, **Variety**, **Issue Depot** and **Sowing Rate**.
To select the paddocks for the order, select their shape in the map image. Selected paddocks will be highlighted yellow, with their details added to the Paddock/Crop list. Once completed select **Save and Next**.

Edit Seed Order:

5. On the “Edit Seed Order” click on any of the “Where and What” fields to edit the current details. To edit a paddock, click on the **Edit** button marked by the red box. If editing a paddock drag the yellow corners, marked by the red circles, to the points of the sown area. Use the **+/-** zoom options in the top right of the image to help mark the area as accurately as possible. Once the paddock area is updated click the **Finished editing paddock** button marked by the red box, then click **Save and Next**.

Note that as the paddock area is updated the hectares (ha) field will automatically update.
